

Gardeners at Ecology Village Garden

Project: Individual or groups will create and maintaining a Hurricane Sandy restoration garden at Floyd Bennett Field's Ecology Village.

Key Responsibilities: In October and November volunteers will collect and store native seeds. In the early spring, volunteers will plant and maintain seedlings at Ecology Village. Later in the spring, native plants will be transferred to areas of the park in need of native plants, particularly in areas damaged by Hurricane Sandy

Duration: Weekday afternoons Oct-Nov, and Mar-June

Location: Ecology Village at Floyd Bennett Field, Brooklyn

Contact: If interested, contact park ranger Dan Meharg at dan_meharg@nps.gov
